## Comments about [The Soft Bulletin](#) - The Flaming Lips

Justie

You can't go wrong with this excellent reissue. The mix of 'Buggin' on this LP differs from the CD version, and the track 'Slow Motion', is not even on the original CD. I've always loved the sound of the original CD, but I'm starting to like the feel of this vinyl re-issue.

Arlelond

Does this have the Mokran remix of Buggin or the original?

Chilele

Just go with this pressing. The HDCD is badly mastered and hard to listen to. This version is SO much better. There's none of that awful digital distortion that pulls you out of the music, and a lot of these tracks seem like flat out different mixes. Everything is much more stripped back. I was thinking about selling my HDCD copy, but they're so different, that I might end up keeping it just to compare and contrast.

Arashigore

Nice and quiet pressing of a fantastic album. All good.
